

# AMIFORT MAX TECHNICAL SHEET

Code: AGKT/030/12

Date: 02/21/2020

Rev.: 01-MCT

Page 1 de 1

> **Product Description** AMIFORT MAX is an organic biostimulant formulated with L-Amino Acids obtained from bacterial fermentation and hydrolysis. With the AMIFORT MAX aminogram we can promote plant growth, fruit setting, root development, uniform ripening, homogeneous fruit size, and beyond that, use it as a weapon against soil exhaustion to recover microflora.

## > Composition

COMPOSITION	CONCENTRATION (% w/w)
Total Nitrogen (N)	14.0
Organic Nitrogen (N)	14.0
Free Amino Acids	70.0

\***Aminogram:** Glycine, Glutamic Acid, Tryptophan, Methionine, Lysine, Threonine, and Arginine.

Contain: Betaines

## > Physicochemical Properties

- **Appearance:** Solid characteristic color
- **pH (1%):** 3 – 5
- **Specific Gravity:** 0.75 – 0.79 g/cc

## > Directions for use

CROP	DOSE AND APPLICATION
VEGETABLES	Fertigation: 3 Kg/ha
	Foliar: 50 g/hL
FRUIT TREES	Fertigation: 3 Kg/ha
	Foliar: 75 g/hL

## > Net Contents

Packaging of 1, 5, and 25 Kg
