

TRANS POT

LIQUID FORMULATION OF POTASSIUM FOR FOLIAR SPRAY

Ideal for flowering.

FOR AMATEUR USE

SOIL IMPROVER

QUARANTEDD COMPOSITION:

- Potassium (K): 250 ppm

DESCRIPTION: TRANS POT is a liquid potassium preparation in the form of potassium salt of vegetable fatty acids suitable for foliar applications.

Its application contributes to eliminating the effects of potassium deficiency and improving quality characteristics such as the taste and aroma of fruit and the increase of sugars.

METHOD AND TIME OF APPLICATION: TRANS POT is applied to all your plants, horticultural, ornamental, fruit, citrus, kiwi, vines, olives, pomegranates, lawns during vegetative growth.

It is applied by universal and uniform foliar spraying until run-off throughout the year.

Repeated applications may be required.

PRECAUTIONS: - Away from children. - Wash hands thoroughly after handling. - Avoid release into the environment.

Poison Centre Telephone: 1401

STORAGE CONDITIONS:

Store in its packaging, at a temperature above 0°C, in an enclosed store, protected from extreme temperatures, fire and moisture.
