

# Safety Data Sheet

This safety data sheet was created pursuant to the requirements of:  
Regulation (EC) No. 1907/2006 and Regulation (EC) No. 1272/2008

Last Revision Date 15-Jul-2022

Version: 1

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

|                                 |                                               |
|---------------------------------|-----------------------------------------------|
| Product Name                    | Peters Professional Potash Special 20-5-31+TE |
| Product Code                    | 2110-215HA                                    |
| Unique Formula Identifier (UFI) | Q5U5-H0SM-X00W-EU63                           |
| REACH registration number       | Not applicable                                |
| Pure substance/mixture          | Mixture                                       |

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

|                      |                                                      |
|----------------------|------------------------------------------------------|
| Recommended Use      | Fertilizer (PC12). Restricted to professional users. |
| Uses Advised Against | Consumer use (SU21)                                  |

Reason why uses advised against Use advised against in Chemical Safety Assessment per REACH Annex I point 7 2.3

### 1.3. Details of the supplier of the safety data sheet

Everris International B.V. Nijverheidsweg 1-5; 6422 PD Heerlen (NL); Tel: +31 (0)45-5609100; Fax: +31 (0)45-5609190

For further information, please contact: INFO-MSDS@EVERRIS.COM

Non-Emergency Telephone Number +31 (0) 418655700

### 1.4. Emergency telephone number

IN CASE OF AN EMERGENCY CALL: +44 1235 239 670 (24/7)

|                |                       |

### 2.1. Classification of the substance or mixture

Regulation (EC) No 1272/2008

|                  |                     |
|------------------|---------------------|
| Oxidizing solids | Category 3 - (H272) |
|------------------|---------------------|

### 2.2. Label elements

### Signal word

Warning

### Hazard statements

H272 - May intensify fire; oxidizer

### Precautionary Statements - EU (§28, 1272/2008)

P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking

P220 - Keep away from clothing and other combustible materials

P280 - Wear protective gloves/protective clothing/eye protection/face protection

### 2.3. Other hazards

No information available.

## SECTION 3: Composition/information on ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical name                                           | EC No (EU Index No) | Weight-% | Classification according to Regulation (EC) No. 1272/2008 [CLP] | Specific concentration limit (SCL) | REACH registration number | M-Factor | M-Factor (long-term) |
|---------------------------------------------------------|---------------------|----------|-----------------------------------------------------------------|------------------------------------|---------------------------|----------|----------------------|
| Iron-DTPA-11; Fe-DTPA (19529-38-5)                      | 243-136-8           | 1 - 5%   | -                                                               | -                                  | 01-2119980786-18          | -        | -                    |
| Boric acid; H <sub>3</sub> BO <sub>3</sub> (10043-35-3) | 233-139-2           | 0.1 - 1% | Repr. 1B (H360FD)                                               | -                                  | 01-2119486683-25          | -        | -                    |

\*The exact percentage (concentration) of composition has been withheld as a trade secret

### Full text of H- and EUH-phrases: see section 16

### Acute Toxicity Estimate

If LD50/LC50 data is not available or does not correspond to the classification category, then the appropriate conversion value from CLP Annex I, Table 3.1.2, is used to calculate the acute toxicity estimate (ATE<sub>mix</sub>) for classifying a mixture based on its components

| Chemical name                              | Oral LD50 mg/kg | Dermal LD50 mg/kg | Inhalation LC50 - 4 hour - dust/mist - mg/L |
|--------------------------------------------|-----------------|-------------------|---------------------------------------------|
| Boric acid; H <sub>3</sub> BO <sub>3</sub> | 2660            | 2000              | 2.12                                        |

| Chemical name                              | CAS No     | SVHC candidates |
|--------------------------------------------|------------|-----------------|
| Boric acid; H <sub>3</sub> BO <sub>3</sub> | 10043-35-3 | Present         |

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

#### General advice

In case of accident or unwellness, seek medical advice immediately (show directions for use or safety data sheet if possible). First aid measures should be executed by trained

---

|                     |                                                                                                                                                                                                                                                                                                                                     |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                     | personnel only.                                                                                                                                                                                                                                                                                                                     |
| <b>Inhalation</b>   | Remove to fresh air. In the case of inhalation of aerosol/mist consult a physician if necessary. If not breathing, give artificial respiration. If symptoms persist, call a physician. Dusty conditions are unlikely if product is used as intended. However, if prolonged inhalation of dust occurs, remove casualty to fresh air. |
| <b>Eye contact</b>  | Rinse thoroughly with plenty of water for at least 15 minutes, lifting lower and upper eyelids. Consult a physician.                                                                                                                                                                                                                |
| <b>Skin contact</b> | Wash skin with soap and water. In the case of skin irritation or allergic reactions see a physician.                                                                                                                                                                                                                                |
| <b>Ingestion</b>    | Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth to an unconscious person. Do not induce vomiting without medical advice.                                                                                                                                                                  |

#### **4.2. Most important symptoms and effects, both acute and delayed**

**Symptoms** None known.

#### **4.3. Indication of any immediate medical attention and special treatment needed**

**Note to physicians** Treat symptomatically.

### **SECTION 5: Firefighting measures**

#### **5.1. Extinguishing media**

**Suitable Extinguishing Media** Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

**Large Fire** CAUTION: Use of water spray when fighting fire may be inefficient.

**Unsuitable extinguishing media** Do not scatter spilled material with high pressure water streams.

#### **5.2. Special hazards arising from the substance or mixture**

Thermal decomposition can lead to release of irritating and toxic gases and vapors.

Thermal decomposition can lead to release of irritating and toxic gases and vapors The product itself does not burn May intensify fire; oxidizer

**Hazardous Combustion Products** Thermal decomposition can lead to release of toxic/corrosive gases and vapors.

#### **5.3. Advice for firefighters**

**Special protective equipment and precautions for fire-fighters** Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear.

### **SECTION 6: Accidental release measures**

#### **6.1. Personal precautions, protective equipment and emergency procedures**

**Personal precautions** Ensure adequate ventilation. Wear protective gloves/clothing and eye/face protection.

**Other information** Refer to protective measures listed in Sections 7 and 8.

**For emergency responders** Use personal protection recommended in Section 8. Prevent entry into waterways, sewers, basements or confined areas.

#### **6.2. Environmental precautions**

**Environmental precautions** See Section 12 for additional Ecological Information. Do not flush into surface water or sanitary sewer system.

### **6.3. Methods and material for containment and cleaning up**

**Methods for containment** Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up** Take up mechanically, placing in appropriate containers for disposal. Use up product completely. Packaging material is industrial waste.

**Prevention of secondary hazards** Clean contaminated objects and areas thoroughly observing environmental regulations.

### **6.4. Reference to other sections**

**Reference to other sections** See section 8 for more information. See section 13 for more information.

## **SECTION 7: Handling and storage**

### **7.1. Precautions for safe handling**

**Advice on safe handling** Ensure adequate ventilation. Avoid breathing dust/fume/gas/mist/vapors/spray. Avoid contact with eyes. Avoid generation of dust. In case of insufficient ventilation, wear suitable respiratory equipment.

**General hygiene considerations** Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink and animal feeding stuffs. When using do not eat, drink or smoke.

### **7.2. Conditions for safe storage, including any incompatibilities**

**Storage Conditions** KEEP OUT OF REACH OF CHILDREN AND PETS. Keep container tightly closed in a dry and well-ventilated place. For quality reasons: Keep out of reach of direct sunlight, store under dry conditions, partly used packaging should be closed well. Keep away from frost.

**Packaging materials** Keep in original container, tightly closed in a safe place.

### **7.3. Specific end use(s)**

**Specific use(s)** Fertilizer.

**Exposure scenario** Mixture. Not required.

**Risk Management Methods (RMM)** The information required is contained in this Safety Data Sheet.

**Other Information**

LGK (Germany) TRGS 510 5.1B

## **SECTION 8: Exposure controls/personal protection**

### **8.1. Control parameters**

#### **Exposure Limits**

| Chemical name                              | European Union | Austria        | Belgium                                               | Bulgaria                   | Croatia                                               |

#### Biological occupational exposure limits

This product, as supplied, does not contain any hazardous materials with biological limits established by the region specific regulatory bodies.

#### Derived No Effect Level (DNEL)

No information available.

#### Predicted No Effect Concentration (PNEC)

No information available.

### 8.2. Exposure controls

|                                 |                                                                                                                         |
|---------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| Personal protective equipment   | Wear normal, light working clothing                                                                                     |
| Eye/face protection             | Wear safety glasses with side shields (or goggles).                                                                     |
| Hand protection                 | Nitrile rubber (0.26 mm). Break through time. > 8 h.                                                                    |
| Skin and body protection        | Lightweight protective clothing.                                                                                        |
| General hygiene considerations  | Handle in accordance with good industrial hygiene and safety practice.                                                  |
| Environmental exposure controls | Local authorities should be advised if significant spillages cannot be contained. Prevent product from entering drains. |

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

|                |             |
|----------------|-------------|
| Physical state | Solid       |
| Appearance:    | Powder(s)   |
| Color:         | Off-white   |
| Odor:          | Fertilizer. |

| Property                      | Values            | Remarks • Method |
|-------------------------------|-------------------|------------------|
| Melting Point/Freezing Point: | No data available | None known       |
| Boiling Point/Range:          | No data available | None known       |
| Flammability (solid, gas):    | No data available | None known       |
| Flammability Limits in Air:   |                   | None known       |
| Upper Flammability Limit:     | Not applicable    |                  |
| Lower Flammability Limit:     | Not applicable    |                  |
| Flash Point:                  | No data available | None known       |

|                            |                       |            |
|----------------------------|-----------------------|------------|
| Autoignition Temperature:  | No data available     | None known |
| Decomposition Temperature: |                       | None known |
| pH                         | 4.8                   | None known |
| pH (as aqueous solution)   | No data available     | None known |
| Kinematic Viscosity:       | No data available     | None known |
| Dynamic Viscosity:         | No data available     | None known |
| Water solubility           | No data available     | None known |
| Solubility(ies)            | No data available     | None known |
| Partition Coefficient:     | No data available     | None known |
| Vapor Pressure:            | No data available     | None known |
| Relative density           | No data available     | None known |
| Bulk density               | 987 kg/m <sup>3</sup> |            |
| Density:                   | No data available     |            |
| Vapour density             | No data available     | None known |
| Particle characteristics   |                       |            |
| Particle Size              | No data available     |            |
| Particle Size Distribution | No data available     |            |

## 9.2. Other information

9.2.1. Information with regard to physical hazard classes  
Not applicable

9.2.2. Other safety characteristics  
No information available

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

Reactivity Not reactive.

### 10.2. Chemical stability

Stability Stable under normal conditions.

#### Specific methods:

Sensitivity to mechanical impact Not sensitive.  
Sensitivity to static discharge Not sensitive.

### 10.3. Possibility of hazardous reactions

Possibility of hazardous reactions None under normal processing.

### 10.4. Conditions to avoid

Conditions to avoid Keep away from open flames, hot surfaces and sources of ignition.

### 10.5. Incompatible materials

Incompatible materials Keep away from catalysts like derivatives of hexavalent chromium and metal halides. Keep away from flammable products (fuels) like charcoal, wood, flour, soot etc.

### 10.6. Hazardous decomposition products

Hazardous Decomposition Products None under normal processing. None under normal use conditions. Thermal decomposition can lead to release of irritating and toxic gases and vapors.

## SECTION 11: Toxicological information

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

### Information on likely routes of exposure

#### Product Information

|              |                                                                                                                                                        |
|--------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Inhalation   | Specific test data for the substance or mixture is not available. Inhalation of dust in high concentration may cause irritation of respiratory system. |
| Eye contact  | Specific test data for the substance or mixture is not available. May cause irritation.                                                                |
| Skin contact | May cause irritation.                                                                                                                                  |
| Ingestion    | May cause gastrointestinal discomfort if consumed in large amounts.                                                                                    |

### Symptoms related to the physical, chemical and toxicological characteristics

|          |                           |
|----------|---------------------------|
| Symptoms | No information available. |
|----------|---------------------------|

#### Numerical measures of toxicity

Based on available data, the classification criteria are not met

#### Acute toxicity

0 % of the mixture consists of ingredient(s) of unknown toxicity

#### Component Information

| Chemical name                              | Oral LD50            | Dermal LD50             | Inhalation LC50         |
|--------------------------------------------|----------------------|-------------------------|-------------------------|
| Boric acid; H <sub>3</sub> BO <sub>3</sub> | = 2660 mg/kg ( Rat ) | > 2000 mg/kg ( Rabbit ) | > 2.12 mg/L ( Rat ) 4 h |

### Delayed and Immediate Effects as well as Chronic Effects from Short and Long-Term Exposure:

|                                   |                                                                   |
|-----------------------------------|-------------------------------------------------------------------|
| Skin corrosion/irritation         | No information available.                                         |
| Serious eye damage/eye irritation | No information available.                                         |
| Respiratory or skin sensitization | Based on available data, the classification criteria are not met. |
| Germ cell mutagenicity            | Based on available data, the classification criteria are not met. |

|                       |                                                                   |
|-----------------------|-------------------------------------------------------------------|
| Carcinogenicity       | Based on available data, the classification criteria are not met. |
| Reproductive toxicity | Based on available data, the classification criteria are not met. |

| Chemical name                                            | European Union |
|----------------------------------------------------------|----------------|
| Boric acid; H <sub>3</sub> BO <sub>3</sub><br>10043-35-3 | Repr. 1B       |

The table below indicates ingredients above the cut-off threshold considered as relevant which are listed as reproductive toxins.

|                                 |                                                                   |
|---------------------------------|-------------------------------------------------------------------|
| STOT - single exposure          | Based on available data, the classification criteria are not met. |
| STOT - repeated exposure        | Based on available data, the classification criteria are not met. |
| Aspiration hazard               | Based on available data, the classification criteria are not met. |
| Endocrine disrupting properties |                                                                   |

## **SECTION 12: Ecological information**

### 12.1. Toxicity

|             |                                                                   |
|-------------|-------------------------------------------------------------------|
| Ecotoxicity | Based on available data, the classification criteria are not met. |
|-------------|-------------------------------------------------------------------|

#### Unknown aquatic toxicity

Contains 0 % of components with unknown hazards to the aquatic environment.

| Chemical name                              | Algae/aquatic plants | Fish | Toxicity to microorganisms | Crustacea                                |
|--------------------------------------------|----------------------|------|----------------------------|------------------------------------------|
| Boric acid; H <sub>3</sub> BO <sub>3</sub> | -                    | -    | -                          | EC50: 115 - 153mg/L (48h, Daphnia magna) |

#### 12.2. Persistence and degradability

Persistence and Degradability: No information available.

#### 12.3. Bioaccumulative potential

Bioaccumulation There is no data for this product.

#### Component Information

| Chemical name                              | Partition coefficient |
|--------------------------------------------|-----------------------|
| Boric acid; H <sub>3</sub> BO <sub>3</sub> | -1.09                 |

#### 12.4. Mobility in soil

Mobility in soil no data available.

Mobility no data available.

#### 12.5. Results of PBT and vPvB assessment

##### PBT and vPvB assessment

| Chemical name                              | PBT and vPvB assessment                                       |
|--------------------------------------------|---------------------------------------------------------------|
| Iron-DTPA-11; Fe-DTPA                      | The substance is not PBT / vPvB                               |
| Boric acid; H <sub>3</sub> BO <sub>3</sub> | The substance is not PBT / vPvB PBT assessment does not apply |

#### 12.6. Endocrine disrupting properties This product does not contain any known or suspected endocrine disruptors

#### 12.7. Other adverse effects

. No information available.

## SECTION 13: Disposal considerations

#### 13.1. Waste treatment methods

Waste from residues/unused products Dispose of in accordance with local regulations. Dispose of waste in accordance with environmental legislation.

Contaminated packaging Do not reuse empty containers.

Other Information Use up product completely. Packaging material is industrial waste. If material is uncontaminated, collect and reuse as recommended for product.

## SECTION 14: Transport information

#### IMDG

##### 14.1

UN-No: 1479

##### 14.2

## SECTION 15: Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### National regulations

|                     |   |
|---------------------|---|
| Denmark             |   |
| Sikkerhedsgruppe DK | C |
| France              |   |

ICPE

Classified installation: article 4705, 4440

#### Germany

LGK (Germany) TRGS 510  
Gefahrstoffverordnung (Germany) TRGS 511  
Water hazard class (WGK)

5.1B  
Not regulated  
slightly hazardous to water (WGK 1)

| Chemical name                              | German WGK Section                                           |
|--------------------------------------------|--------------------------------------------------------------|
| Iron-DTPA-11; Fe-DTPA                      | Reg. no. 9088, hazard class 2 - obviously hazardous to water |
| Boric acid; H <sub>3</sub> BO <sub>3</sub> | Reg. no. 315, hazard class 1 - slightly hazardous to water   |

#### Netherlands

| Chemical name                              | Netherlands - List of Carcinogens | Netherlands - List of Mutagens | Netherlands - List of Reproductive Toxins        |
|--------------------------------------------|-----------------------------------|--------------------------------|--------------------------------------------------|
| Boric acid; H <sub>3</sub> BO <sub>3</sub> | -                                 | -                              | Fertility Category 1B<br>Development Category 1B |

#### European Union

Take note of Directive 98/24/EC on the protection of the health and safety of workers from the risks related to chemical agents at work.

#### Take note of Directive 94/33/EC on the protection of young people at work

Not to be used by professional users below 18 years of age, see the National Working Environment Authorities Executive Order on young peoples dangerous work.

#### Authorizations and/or restrictions on use:

This product contains one or more substance(s) subject to restriction (Regulation (EC) No. 1907/2006 (REACH), Annex XVII)

| Chemical name                              | Restricted substance per REACH Annex XVII | Substance subject to authorization per REACH Annex XIV |
|--------------------------------------------|-------------------------------------------|--------------------------------------------------------|
| Boric acid; H <sub>3</sub> BO <sub>3</sub> | 30                                        | -                                                      |

#### REGULATION (EU) 2019/1148 on the marketing and use of explosives precursors

This product is regulated by Regulation (EU) 2019/1148: all suspicious transactions, and significant disappearances and thefts should be reported to the relevant national contact point

#### Persistent Organic Pollutants

Not applicable

#### Ozone-depleting substances (ODS) regulation (EC) 1005/2009

Not applicable

#### EU - Plant Protection Products (1107/2009/EC)

#### Biocidal Products Regulation (EU) No 528/2012 (BPR)

| Chemical name                              | Biocidal Products Regulation (EU) No 528/2012 (BPR)                                                                                    |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| Boric acid; H <sub>3</sub> BO <sub>3</sub> | Product-type 8: Wood preservatives Product type 8 (details in Commission Implementing Decision 2017/2334/EU)<br>8 - Wood preservatives |

#### International Inventories:

**Legend:**

**TSCA** - United States Toxic Substances Control Act Section 8(b) Inventory  
**DSL/NDSL** - Canadian Domestic Substances List/Non-Domestic Substances List  
**EINECS/ELINCS** - European Inventory of Existing Chemical Substances/European List of Notified Chemical Substances  
**ENCS** - Japan Existing and New Chemical Substances  
**IECSC** - China Inventory of Existing Chemical Substances  
**KECL** - Korean Existing and Evaluated Chemical Substances  
**PICCS** - Philippines Inventory of Chemicals and Chemical Substances  
**AICS** - Australian Inventory of Chemical Substances

**15.2. Chemical safety assessment**

**Chemical Safety Report** Substance(s) usage is covered according to Reach regulation 1907/2006

**SECTION 16: Other information**

**Key or legend to abbreviations and acronyms used in the safety data sheet**

**Full text of H-Statements referred to under section 3**

H360FD - May damage fertility. May damage the unborn child

**Legend**

SVHC: Substances of Very High Concern for Authorization:  
PBT: Persistent, Bioaccumulative, and Toxic (PBT) Chemicals  
vPvB: Very Persistent and very Bioaccumulative (vPvB) Chemicals

**Legend Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION**

TWA TWA (time-weighted average) STEL STEL (Short Term Exposure Limit)  
Ceiling Maximum limit value \* Skin designation

**Classification procedure**

- Calculation method
- Expert judgment and weight of evidence determination

| Classification procedure                                        |                    |
|-----------------------------------------------------------------|--------------------|
| Classification according to Regulation (EC) No. 1272/2008 [CLP] | Method Used        |
| Acute oral toxicity                                             | Calculation method |
| Acute dermal toxicity                                           | Calculation method |
| Acute inhalation toxicity - gas                                 | Calculation method |
| Acute inhalation toxicity - vapor                               | Calculation method |
| Acute inhalation toxicity - dust/mist                           | Calculation method |
| Skin corrosion/irritation                                       | Calculation method |
| Serious eye damage/eye irritation                               | Calculation method |
| Respiratory sensitization                                       | Calculation method |
| Skin sensitization                                              | Calculation method |
| Mutagenicity                                                    | Calculation method |
| Carcinogenicity                                                 | Calculation method |
| Reproductive toxicity                                           | Calculation method |
| STOT - single exposure                                          | Calculation method |
| STOT - repeated exposure                                        | Calculation method |
| Acute aquatic toxicity                                          | Calculation method |
| Chronic aquatic toxicity                                        | Calculation method |
| Aspiration hazard                                               | Calculation method |
| Ozone                                                           | Calculation method |
