## Plant Starter

Get your plants off to the right start

P<sub>2</sub>O<sub>5</sub> K<sub>2</sub>O

### Description

Give your plants the perfect start in life. Peters® Professional Plant Starter is specially formulated for peat-based pot plants, bedding plants and container nursery stock. They'll respond fast after application, and form stronger, more uniform roots. It's also great for stimulating flower bud development. Packed with quality trace elements and NPK: no ballast substances here! It boasts the unique Peters® M-77 chelating formula too, and an NPK ratio with a high phosphate level.

#### Guaranteed analysis

#### Oxide

| N | Total Nitrogen                           | 10%  |
|---|--|------|
|   | Nitrate nitrogen (N-NO <sub>3</sub> )    | 0.3% |
|   | Ammoniacal nitrogen (N-NH <sub>4</sub> ) | 7.4% |
|   | Urea nitrogen (N-Urea)                   | 2.3% |

| P <sub>2</sub> O <sub>5</sub> | Phosphorus Pentoxide                           | 52%    |
|-------------------------------|--|--------|
|                               | Water soluble (P <sub>2</sub> O <sub>5</sub> ) | 52%    |
| K <sub>2</sub> O              | Potassium Oxide                                | 10%    |
|                               | Water Soluble (K <sub>2</sub> O)               | 10%    |
| В                             | Boron  | 0.02%  |
|                               | Water soluble (B)                              | 0.02%  |
| Cu                            | Copper   | 0.015% |
|                               | Water soluble (Cu)                             | 0.015% |
|                               | Copper EDTA (Cu)                               | 0.015% |
| Fe                            | Iron   | 0.12%  |
|                               | Water soluble (Fe)                             | 0.12%  |
|                               | Iron DTPA (Fe)                                 | 0.12%  |
| Mn                            | Manganese                                      | 0.06%  |
|                               | Water soluble (Mn)                             | 0.06%  |
|                               | Manganese EDTA (Mn)                            | 0.06%  |
| Мо                            | Molybdenum                                     | 0.01%  |
|                               | Water soluble (Mo)                             | 0.01%  |
| Zn                            | Zinc   | 0.015% |
|                               | Water soluble (Zn)                             | 0.015% |
|                               |  | 0.015% |

### Benefits

- **N** Helps your plants form stronger, more consistent roots
- **♦** Small, easy-dissolve granules
- **♦** Also encourages bud formation

#### **Application rates**

Occasional feeding

(for example, once a week) 0.8 - 2 g/liter

Attention: Trial first on a small scale before changing the rate, application or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL Growing Solutions cannot be held responsible for any adverse results.

#### How to use

- It's best to prepare your stock solution 1-2 hours before use, stir well or use warm water to make sure that Peters® Professional Plant Starter dissolves completely.
- 2 Do not mix this product with Peters® Excel.
- 3 Close partly used or damaged bags securely.
- 4 Store under dry conditions.
- 5 If you need more information, please contact your technical support.

#### **Attention**

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
